1588 West North Temple
Salt Lake City, Utah, 84116

Re. as in "San Juan Record," July 8/76, today received
in the mails.

Dear Sirs:

Please take notice_: That the "Sal" claims or fractions,
located 1954 and SEC in 1955 and Prospectus and Report issued,
have been in conformance of the Law since said date and have never
been disputed at Law at any time.

No permission may be granted to, in any way, third persons
or Corporations to intrude on this land or there-under for any pur-
pose without consent of the owner, The Nuclear Corporation and John
Y. Cole former owner and President. They are not Officially surveyed;
but are easily checked by location monuments and posts etc.
Numbers 1-12 is on the west side of the Highway and numbers 3-5 are
on the East side. A sketch Map is enclosed herewith which approximates
their location. These monuments etc., were checked a few weeks ago.

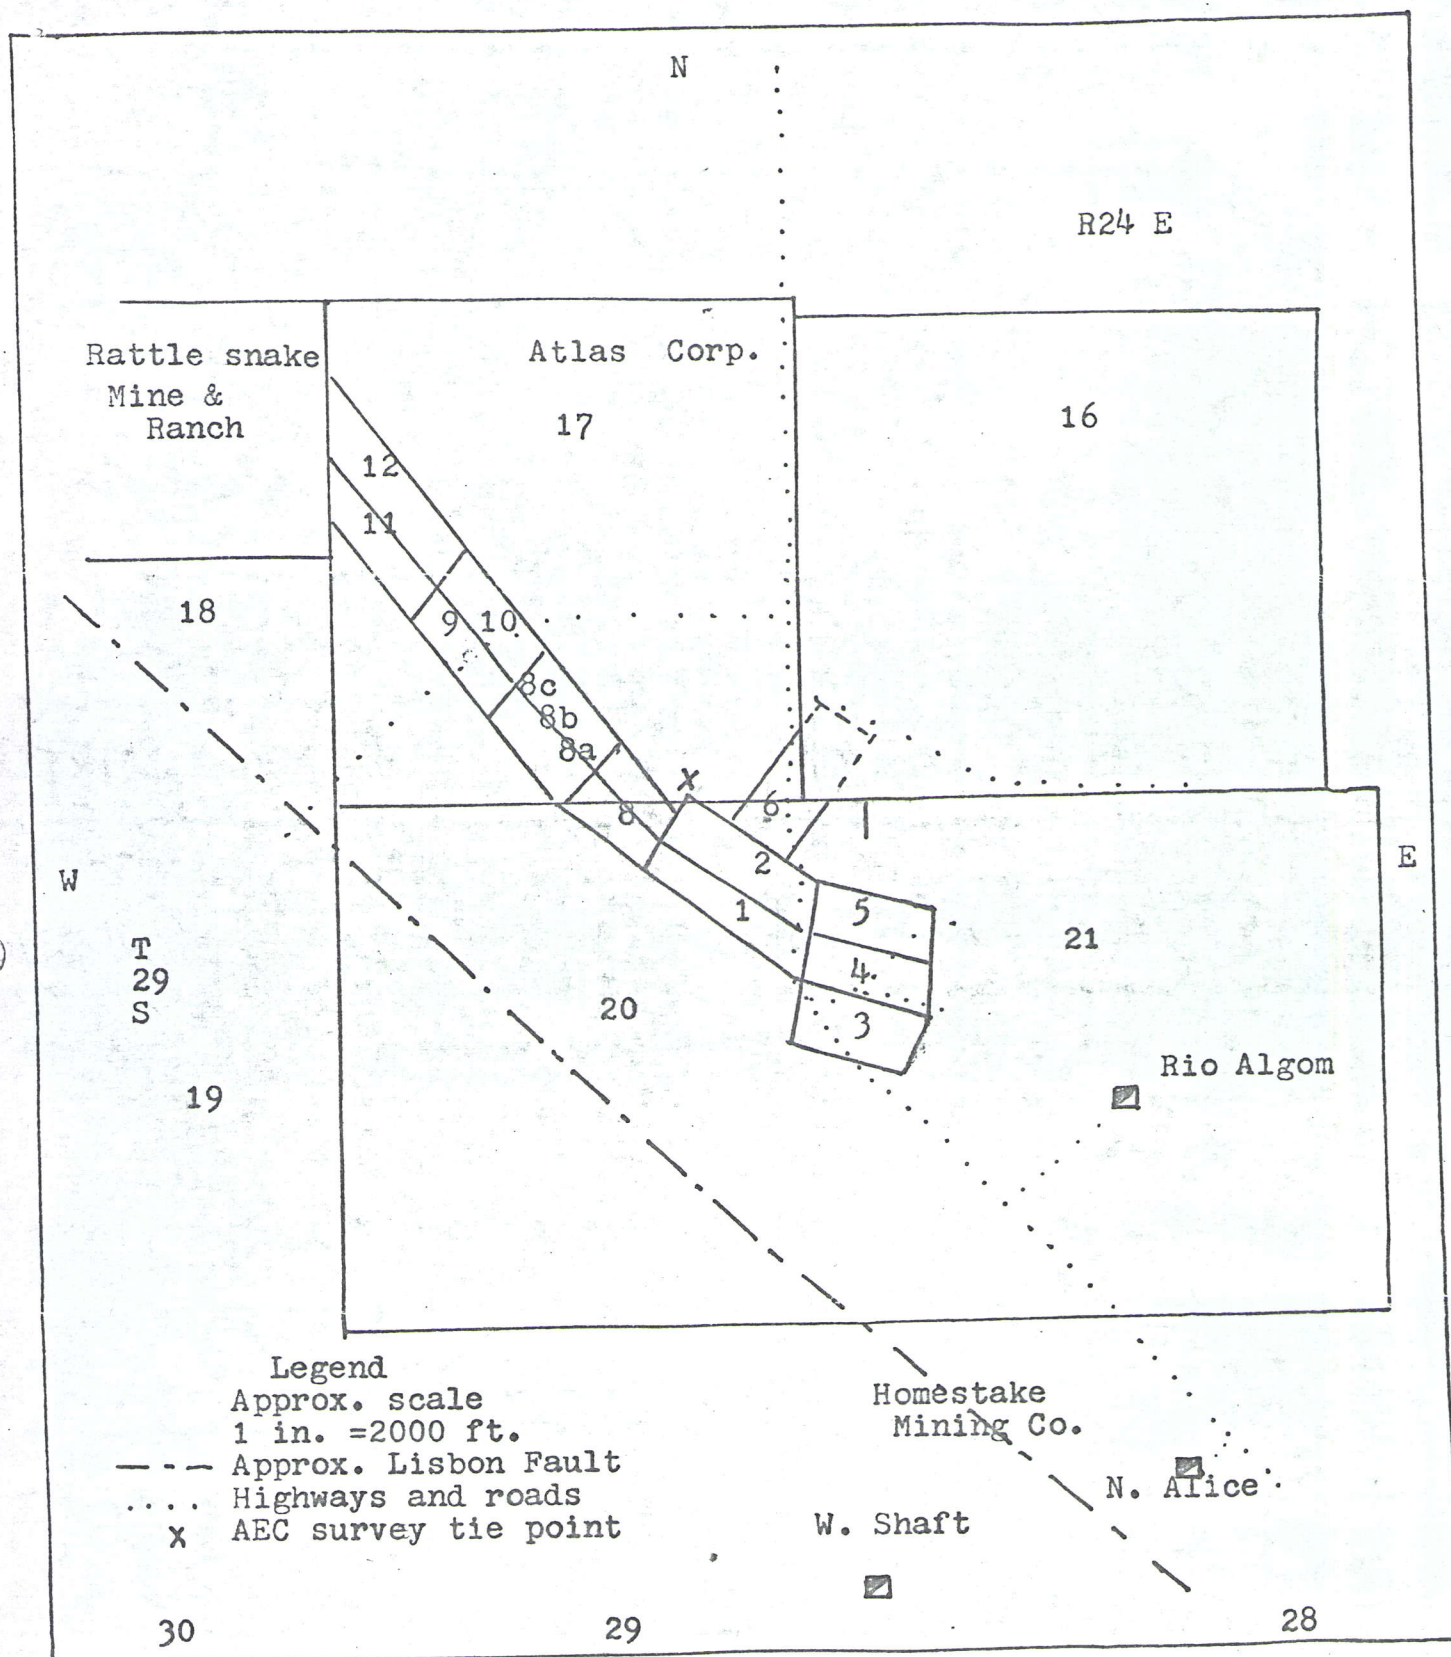

This is well known to the Atlas Corporation and all others
in the area. Several of which drilled holes on the Sal ground without
our knowledge or consent unlawfully .

Yours very truly
Nuclear Corporation
per. John Y. Cole , President.

A handwritten signature in cursive script, appearing to read "John Y. Cole".

Map enclosed.

Sal claims, Lisbon Valley, Utah
